The International Year of the Periodic Table Celebrations

International Year
of the Periodic Table
of Chemical Elements

Date: 14.08.2019
Place: Kalpakkam

Dear Sir/Madam,
Greetings !!!

You may be aware that the chemistry community at **Indira Gandhi Centre for Atomic Research (IGCAR)**, Kalpakkam has been actively engaged in organizing various events, to promote and popularize chemistry amongst the student and research community at both school and college levels. These include lectures, chemistry demonstrations, quizzes and theme meetings on focused areas of current interest. All these are being organized under the auspices of **Society for Advancement of Chemical Sciences and Education (SACSE)**, launched in 2012.

This year 2019 is declared to be The International Year of the Periodic Table by UNESCO. To celebrate IYPT - 2019, as part of SACSE, we have been conducting series of events remembering the efforts made by different eminent scientists that led to the current form of Modern Periodic Table.

We would like to conduct i) a quiz program (for about 1 ½ h) by selecting about 10 students by conducting a written exam, ii) demonstration experiments (1 ½ h) to motivate the students towards science especially chemistry and iii) a guest lecture on the historical aspects of chemistry (45 min + discussion). We look forward your interest, encouragement and support for conducting this program at your premises on 26-09-2019. Thanking you and with best regards

Yours sincerely,

To
