

JINDAL STEEL AND POWER

Jindal Steel and Power Limited (JSPL) is an Indian steel company based in New Delhi. JSPL is a part of OP Jindal Group. It is the third largest private steel producer in India and only private player in India to produce rails. The company manufactures and sells sponge iron, mild steel slabs, rails, mild steel, structural, hot rolled plates, iron ore pellets and coils. Jindal Steel and Power set up the world's first coal-gasification based DRI plant at Angul, Odisha that uses the locally available high-ash coal and turns it into synthesis gas for steel making, reducing the dependence on imported coke-rich coal. JSPL's coal gas-based steel tech became a case study at Harvard University.

No. of Students Participated: 50 – I M.H.R.M, III B.B.A

Visit Date: 09/03/2021

Outcomes:

- Networking and industry connections
- Practical application of business concepts
- Understanding safety protocols and compliance measures of steel industry
- Exposure to organizational culture and team work
