

TEACHING LEARNING METHODS

BLACK BOARD METHOD

Blackboard method is a course management system that allows you to provide content to student in a central location, communicate with students quickly, provide grades in an electronic format to students.

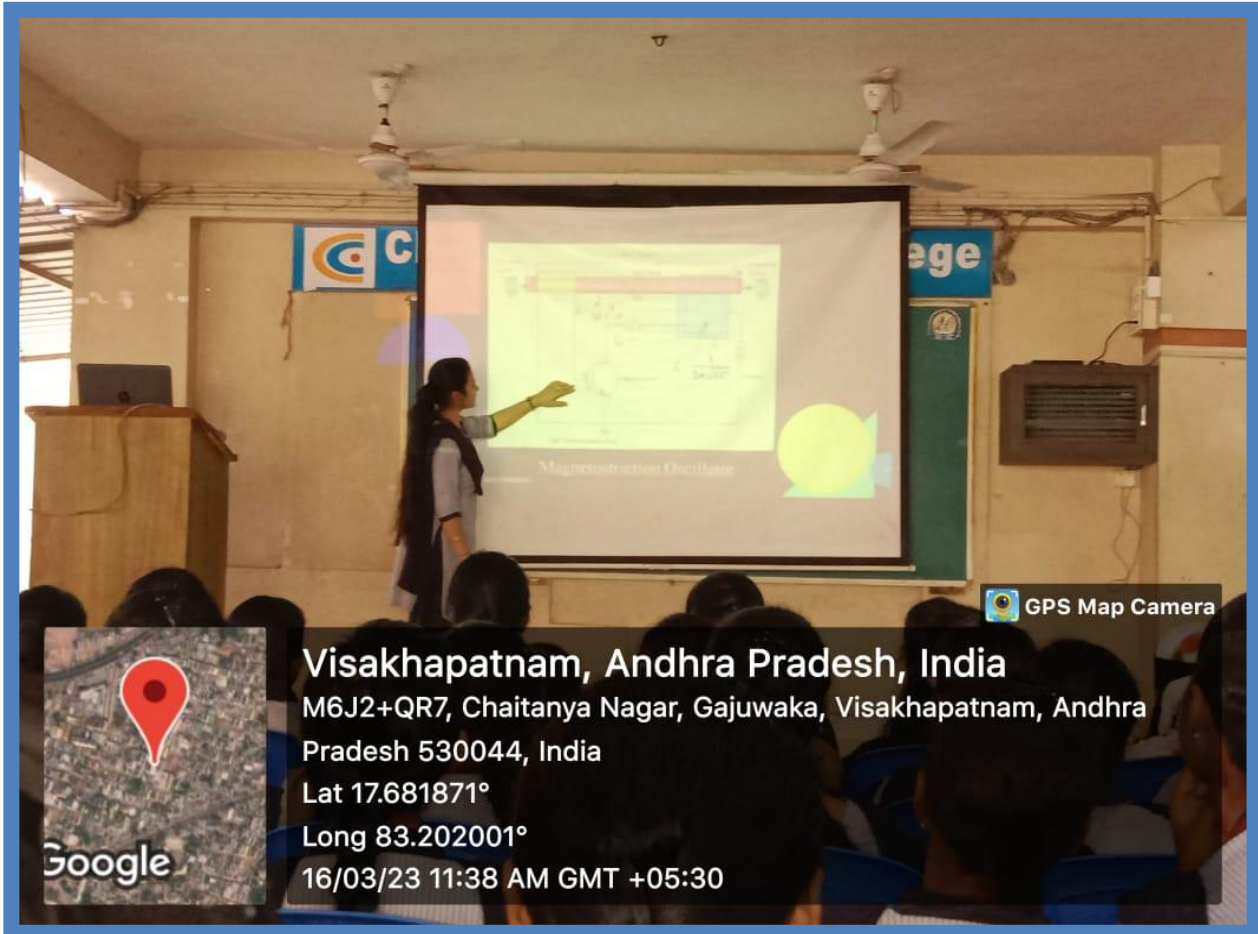

ICT BASED LEARNING

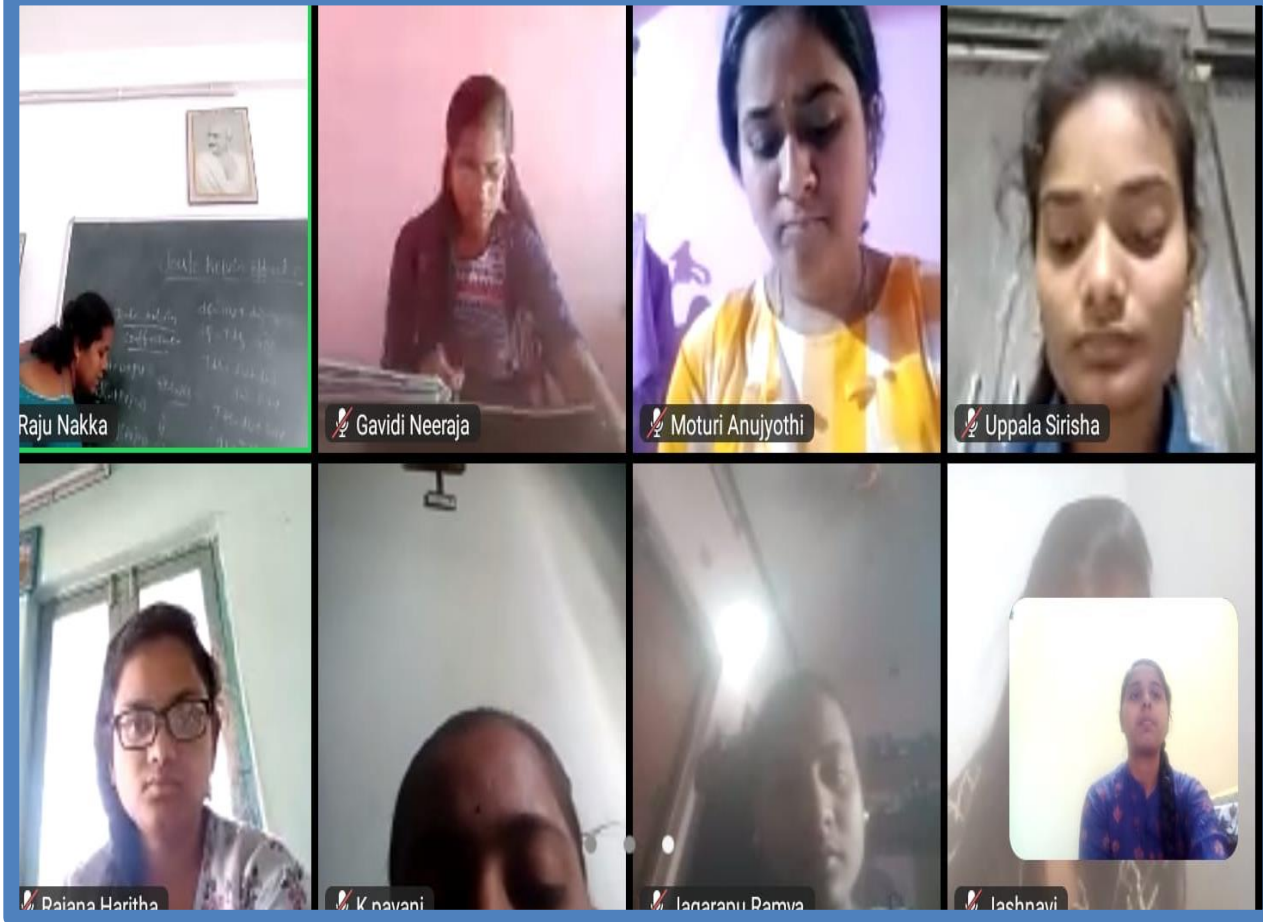

ICT based learning is a method of delivering learning material via information and communication technologies i.e. web based, computer based, videos etc. The students will be able to acquire knowledge and skills in a better way and develop to think for themselves.

STUDENTS SEMINARS

ZOOM CLASSES

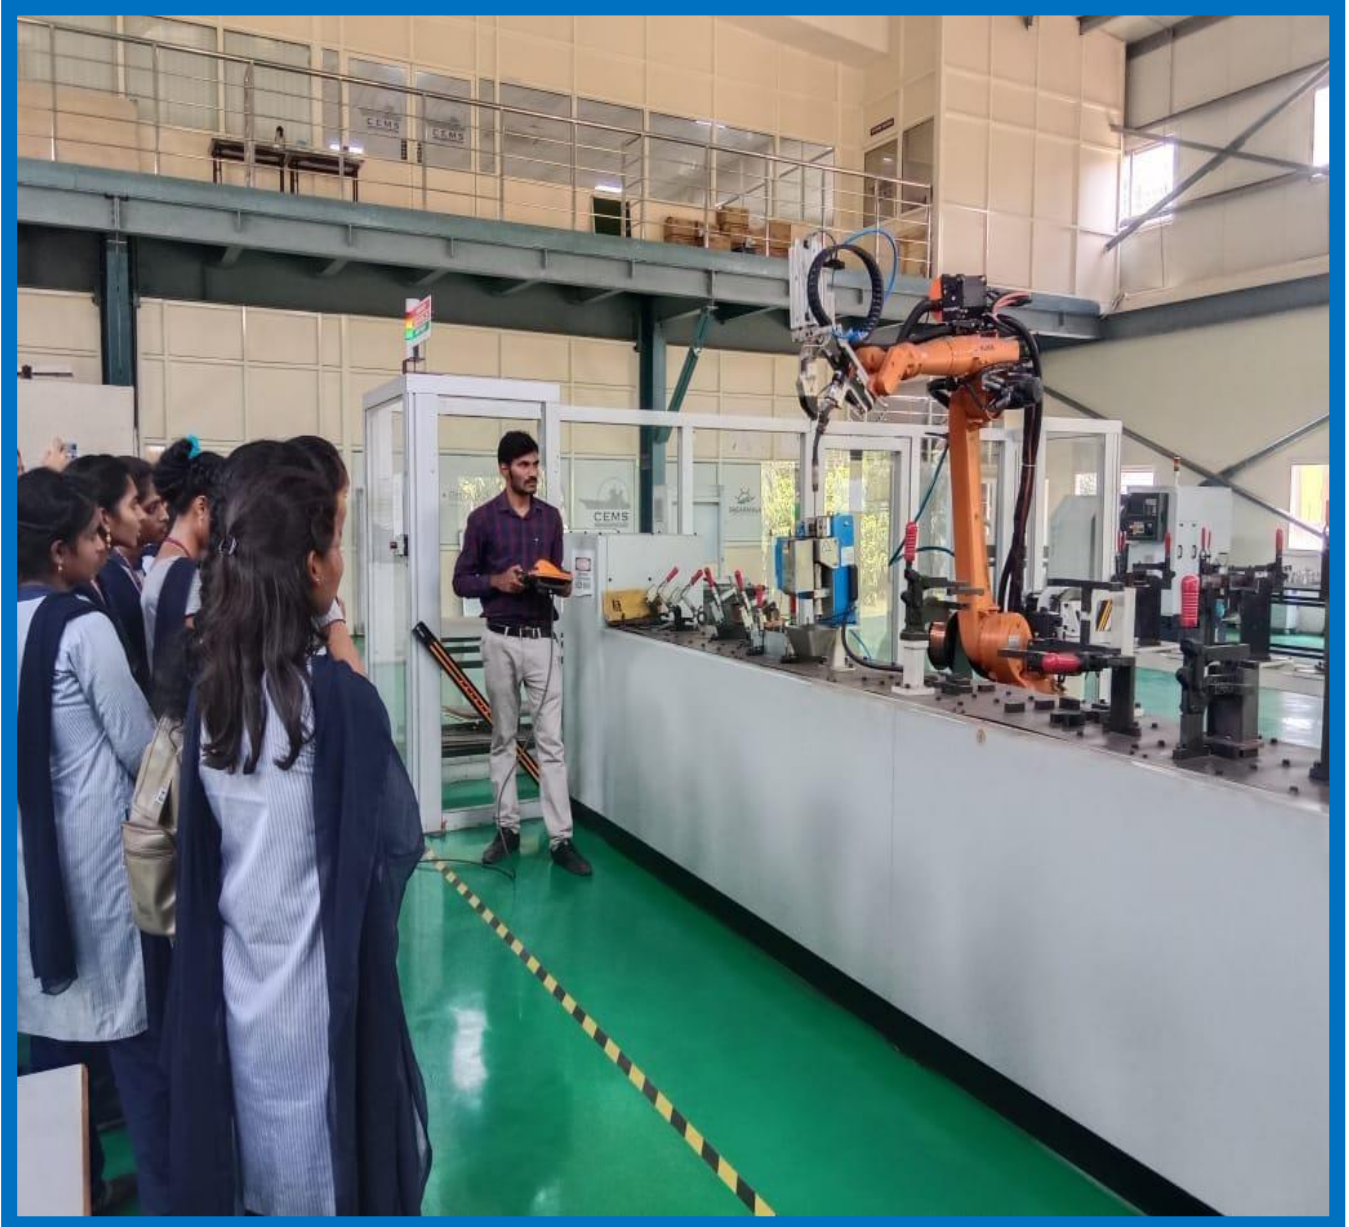

EXPERIMENTAL LEARNING

Experimental learning considers the individual learning process. It makes learning an experience that moves beyond the classroom and strives to bring a more involvement way of learning.

Topic: Young's modulus – uniform bending

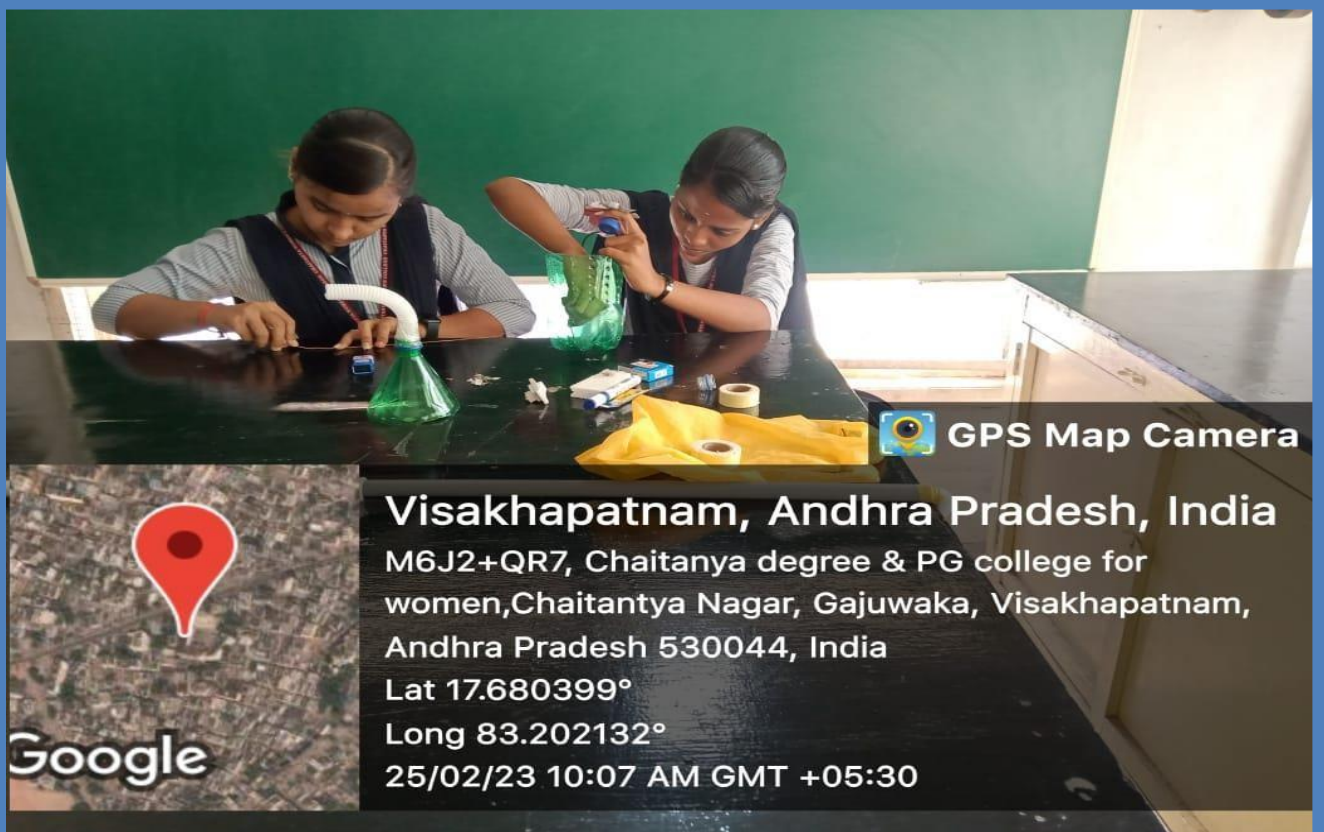

Students learned about working of Robotics in
Center of Excellence in MaritimeShip building (CEMS) by
Industrial visit on
10-06-2023

LEARNING BY DOING

Learning by doing is a theory that places heavy emphasis on student engagement and is a hands on, task oriented, process to education. In which students actively participate in more practical and imaginative ways of learning.

PARTICIPATION METHOD

QUIZ

Quiz is a form of mind sport in which players attempt to answer questions correctly. Quiz can be used as a brief assessment in education to measure growth in knowledge, abilities and skills. So we are conducting quiz weekly once.

We are conducting quiz on the topic of lasers .

TOPIC: LASERS

DATE: 17-9-2022
