

A vibrant green-themed poster for World Environment Day. The background is a light green gradient with a large, faint circular graphic behind the text. The text 'WORLD Environment DAY' is centered, with 'WORLD' and 'DAY' in bold, uppercase, sans-serif font, and 'Environment' in a large, elegant, cursive script. The design is framed by a thick green border. Decorative elements include green leaves and branches at the top and bottom, several colorful butterflies (blue, yellow, and green) scattered throughout, and a silhouette of a city skyline with a wind turbine at the bottom. A large, dark green tree silhouette is positioned above the word 'Environment'.

It is celebrated on June 5th, every year.

**THEME: “BEAT PLASTIC POLLUTION
AND ECOSYSTEM RESTORATION”.**

World Environment Day has been celebrated by millions of people across the world since its establishment by the UNEP in 1972. Plastic pollution was first noticed in the ocean by scientists carrying out plankton studies in the ocean in the late 1960s and early 1970s. Plastic pollution is the accumulation of plastics in the earth's environment that adversely affects the life and their habitats. Most of the plastics are not recyclable and the majority does not biodegrade that can pollute ecosystem and harm organisms. To reduce plastic consumption, Avoid single – use plastic, remember to take a cloth bag, recycle chewing gums, buy more bulk foods and fewer packaged products. Replace plastic Tupperware for glass or steel containers.

SPEECH

Good morning all, I am surya kumari from botany department in chiatanya women's degree college. Do you think it's possible to live life without plastics? Wondering how to do it or at least get started? They are some ways us to avoid the plastic by carrying reusable shopping bags .Do you have any idea on chico bags? Yes you are correct they are a great emergency alternative , they compress into their own attached stuff sack , which makes very convenient and likely to use. Give up bottled water get a reusable stainless steel bottle which is a completely plastic-free. Although it is not that easy to eradicate the plastic usage completely, we have to take part in conserving our earth's resources. As you are the youth, you have responsibility to save our environment. So students hope you all follow my words and be a responsible citizens to save environment for our future generations.

Thankyou.
